

Gardening Sheds

Customized to fit the consumers' needs.

We are the Logan-Magnolia Agricultural Science class and we are selling garden sheds that we will build. We are recycling boards that came from John Straight's corn crib, which was built in the 1930's. Our class will be raising money that will go towards our agricultural science programs including the pond, greenhouse, shop equipment, and other agricultural projects.

Available Sheds

❖ Wood shed-

Size: 8'x12'

Cost: \$1,900.00

❖ Steel Shed-

Size: 9'x12'

Cost: \$2,200.00

Since there will be limited supplies, this sale is a **“first-come; first serve”** basis. Also, the consumer must have their **own transportation** for the shed. For more information, call 712-644-2250 or email Klint Kersten at klkersten@lomaschools.org.
