

HEADS UP: Concussion in High School Sports

Please note this important information based on Iowa Code Section 280.13C, Brain Injury Policies:

- (1) A student participating in extracurricular interscholastic activities, in grades seven through twelve, **must be immediately removed from participation** if the coach, contest official, licensed healthcare provider or emergency medical care provide believe the student has a concussion based on observed signs, symptoms, or behaviors.
- (2) Once removed from participation for a suspected concussion, the **student cannot return to participation until written medical clearance has been provided** by a licensed health care provider.
- (3) A student cannot return to participation until s/he is free from concussion symptoms at home and at school.

(4) Definitions:

“Contest official” means a referee, umpire, judge, or other official in an athletic contest who is registered with the Iowa high school athletic association or the Iowa girls high school athletic union.

“Licensed health care provider” means a physician, physician assistant, chiropractor, advanced registered nurse practitioner, nurse, physical therapist, or athletic trainer licensed by a board.

“Extracurricular interscholastic activity” means any extracurricular interscholastic activity means any dance or cheerleading activity or extracurricular interscholastic activity, contest, or practice governed by the Iowa high school athletic association or the Iowa girls high school athletic union that is a contact or limited contact activity as identified by the American academy of pediatric.

“Medical clearance” means written clearance from a licensed health care provider releasing the student following a concussion or other brain injury to return to or commence participation in any extracurricular interscholastic activity.

What is a concussion?

Concussions are a type of brain injury that disrupt the way the brain normally works. Concussions can occur in any sport or recreational activity and can result from a fall or from players colliding with each other, the ground, or obstacles. Concussions can occur with or without loss of consciousness, but most concussions occur without loss of consciousness.

What parents/guardians should do if they think their child has a concussion?

1. Teach your child that it's not smart to play with a concussion.
2. **OBEY THE LAW.**
 - a. Seek medical attention right away.
 - b. Keep your child out of participation until s/he is cleared to return by a licensed healthcare provider.
3. Tell all of your child's coaches, teachers, and school nurse about ANY concussion.

What are the signs and symptoms of concussion?

Signs and symptoms of concussion can show up right after the injury or may not be noticed until days after the injury. If an athlete reports one or more symptoms of concussion after a bump, blow, or jolt to the head or body, s/he should be removed from play immediately. The athlete should only return to play with permission from a health care provider and after s/he is symptom free at home and at school.

Signs Observed by Parents or Coaches:

- Appears dazed or stunned
- Is confused about assignment or position
- Forgets an instruction
- Is unsure of game, score, or opponent
- Moves clumsily
- Answers questions slowly
- Loses consciousness (even briefly)
- Shows mood, behavior, or personality changes
- Can't recall events prior to hit or fall
- Can't recall events after hit or fall

Symptoms Reported by Student-Athlete:

- Headache or "pressure" in head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Sensitivity to light
- Sensitivity to noise
- Feeling sluggish, hazy, foggy, or groggy
- Concentration or memory problems
- Confusion
- Just not "feeling right" or is "feeling down"

STUDENTS, If you think you have a concussion:

- **Tell your coaches & parents** – Never ignore a bump or blow to the head, even if you feel fine. Also, tell your coach if you think one of your teammates might have a concussion.
- **Get a medical check-up** – A physician or other licensed health care provider can tell you if you have a concussion, and when it is OK to return to play.
- **Give yourself time to heal** – If you have a concussion, your brain needs time to heal. While your brain is healing, you are much more likely to have another concussion. It is important to rest and not return to play until you get the OK from your health care professional.

PARENTS/GUARDIANS, You can help your child prevent a concussion:

- Make sure they wear the right protective equipment for their activity. It should fit properly, be well maintained, and be worn consistently and correctly.
- Ensure that they follow their coaches' rules for safety and the rules of the sport.
- Encourage them to practice good sportsmanship at all times.

For more information visit: www.cdc.gov/Concussion

IMPORTANT: Students (grades 7-12) participating in interscholastic athletics, cheerleading and dance; and their parents/guardians; must annually sign the acknowledgement below and return it to their school. Students cannot practice or compete in those activities until this form is signed and returned.

We have received the information provided on the concussion fact sheet titled, "HEADS UP: Concussion in High School Sports."

CONSENT FOR MEDICAL TREATMENT

Iowa law requires a Parent's or legal guardian's written consent before their son or daughter can receive emergency treatment unless in the opinion of a physician, the treatment is necessary to prevent death or serious injury.
 As parent(s) or legal guardian(s) of the child named, I (we) authorize emergency medical treatment or hospitalization that is necessary in the event of an accident or illness of my (our) child. I (we) understand that this written consent is given in advance of any specific diagnosis or hospital care. This written authorization is granted only after a reasonable effort has been made to contact me (us).

Parent's/Guardian's Signature: _____

CONCUSSION AWARENESS

The Iowa legislature passed a new law, effective July 1, 2011, regarding students in grades 7-12 who participate in extracurricular interscholastic activities. Please note this important information from Iowa Code Section 280.13C, Brain Injury Policies:

1. A child must be immediately removed from participation (practice or competition) if his/her coach or a contest official observes signs, symptoms, or behaviors consistent with a concussion or brain injury in an extracurricular interscholastic activity.
 2. A child may not participate again until a licensed health care provider trained in the evaluation and management of concussions and other brain injuries has evaluated him/her and the student has received written clearance from that person to return to participation.
 3. "Licensed health care provider" means a physician, physician assistant, chiropractor, advanced registered practitioner, nurse, physical therapist, or athletic trainer licensed by a board.
- "Extracurricular interscholastic activity" means any extracurricular interscholastic activity, contest, or practice, including sports, dance, or cheerleading.

IMPORTANT: Students participating in interscholastic athletics, cheerleading, and dance, and their parents/guardians, must sign the acknowledgment below and return it to their school. Students cannot practice or compete in those activities until this form is signed and returned.
